PLEASE TAKE A MOMENT TO NOTICE HOW THE INSTRUMENTS AND BOWS ARE PACKED FOR CORRECT PACKING ON YOUR RETURN SHIPMENT.

PACKING CHECKLIST

- ___ De-tune the instrument one half-step.
- ___ Loosen the hair on all bows.
- ___ Place foam around the bridge.
- ___ Place cardboard-rolls under the tailpiece and fingerboard.
- ___ Place foam between the case and instrument so that it does not move.
(use wax paper between foam and instrument during hot weather to prevent foam from adhering to the varnish).
- ___ For double violin cases, place foam between the pegs of one instrument and the C-bout of the other instrument. Some of our double cases have a built-in protective flap that serves the same purpose. Please be certain it is positioned correctly.
- ___ Ensure that the instrument and bow spinners, ties, and neck-straps are in place.
- ___ Use the case blanket or other covering for the instrument.
- ___ Be certain the instrument or bow case is packed securely into the shipping box with bubble wrap or paper, so that the case does not move.

PLEASE BE CERTAIN THAT ALL OF THESE PACKING DETAILS ARE COMPLETE BEFORE SHIPPING.

THANK YOU
